" I love to work in a progressive environment where I can utilize my knowledge and experience to learn new skills and also get involved in being a part of a winning team. I am a cognitive designer with about 2.6 years of experience in user experience design, 1+ in story board Artist and 1+ in Auto CADD designing industrial experience."

Work Experience

Wongdoody + Infosys

Mar2021 - till date

Associate-experience Designer

I Delighted to worked with Fortune 500MNC, where I had chance to explored designing across a variety of domains. Meanwhile, continuously skill up through the in-house training's and initiatives.

below are the some of few projects which i have worked in Wongdoody journey

- Online Banking application

Working with a team of developers and designers as Full-stack designer/ UX unicorn to create online banking responsive design application where my role is to collaborate with designers to create high fidelity designs and achieve the same in development.

- Banking platform Design System

Worked in Digital Banking Processing Platforms for Retail and Corporate Banking by Independent Research Firm where the responsibility is to design the complete design system.

- Government TAX Agency

worked as a UX researcher to enhance user experience for a native mobile application where the final outcome was 50% faster completion of form-filling task and 60%screen reduction with all functionalities compared to existing screens and also we achieved zero deficiency delivery and received Insta Award for best rating from client.

- DA portal

lead 2+ designers to Designed and presented native flows for a Employee well being share-point intranet portal.

- Agriculture domain

Worked as a visual designer for design System in global agriculture white label company

Inucom Pvt LTD

Sep2020 - Feb2021

Story board Artist & SME

worked as a freelancer Story board artist to create story boards for visual impact of the story line, which help 3D Artists to create 3D, 2D videos making along with it I worked as SME for Electrical concepts.

M.Govind & sons

April2013 - Sep2014

Design Engineer

Responsibility to create Auto CAD Design layouts, plans, design samples for automatic bailing cotton press machines and hydraulic machines. A key achievement was pointed out design failure of tilting cotton press design and I had provided the design solution to overcome the existing failure.
